

THE SYSTEM

Words by *Bob Nathaniel & Timothy Weerasekera*
Music and Arrangement by *Paulo Garganta*

The busyness of life bursts into motion
The trains, they roll on past the crowded stations
People jostle, push and shove
Reaching for the ladder's rung above

This urge to be the best in all that you do
Slow your pace enough, they'll overtake you
Looking out for number one
That's the way life is, here in the system

CHORUS

'Cause if you just flow, flow with the system
That's all you'll know, caught in the system

If you'll just flow and ask no questions
This is where you'll be, stuck in the system
Here in the system
Here in the system
Here in the system

CHANT

If you don't flow, you've got to go
If you don't flow, you've got to go
If you don't flow, you've got to go
If you don't flow, you've got to go
If you don't flow, you've got to go
If you don't flow, you've got to go
You've got to go
You've got to go
You've got to go

CHORUS

'Cause if you just flow, flow with the system
Then you'll do fine, here in the system

Follow the rules, and ask no questions
You'll be at home here in the system
Here in the system
Here in the system
Here in the system
